### ROUNDHOUSE BURNED

A Falling Wall Burles Twelve Men.

### TWO OF THEM INSTANTLY KILLED

Another One Died a Few Hours After Being Taken Out of the Ruins, and Still Another One is Likely to Die—The Other Eight Badly Injured but Will Probably Recover.

TOLEDO, March 18.—The roundhouse of the Wabash Railroad company, in this city, located at the foot of South street, on the dock front, burned to the ground between 10 and 11 o'clock yesterday.

Three-quarters of an hour after the first alarm was sent in the southwest wall of the building, 60 feet in circumference, fell in, burying 12 men underneath it. Two of them were instantly killed, a third died a short time after being taken out of the debris, and the others were all badly hurt, one probably fatally. All but one, John Bowen, were employees of the Wabash.

THE DEAD ARE:

R. H. Bohman, aged 56, painter, married, seven children, skull crushed, internally injured.

J. J. Preston, aged 35, car inspector, married, six children, back broken, skull crushed; killed instantly.

John Bowen, aged 18, spectator, skull crushed, internally injured; killed instantly.

THE INJURED ARE:

F. H. Howard, foreman, Eastern division, head bruised, face cut, slightly burned; will recover.

John Leary, machinist, leg broken, arm crushed, skull fractured, may die.

Chas. Becker, painter, head and shoulders cut.

Patrick McDonough, fireman, skull fractured, shoulder broken; will recover.

Martin Greenburg, car repairer, head cut, will recover.

Harry Zimmerman, painter, legs sprained, body bruised.

Louis Becker, painter, head bruised, shoulder sprained.

Henry Gering, car repairer, head bruised and cut.

T. C. Lauer, truck foreman, head and neck sprained, head cut.

The first alarm for the fire came by telephone to the district office at 10:10 a. m. A few minutes previously a resident of the neighborhood of the roundhouse saw a small flame burst out of the cupola of the building and ran to the office of the general foreman directly across from the roundhouse and notified them in charge.

General Foreman Howard announced the company's private fire department, consisting of 15 men, to the scene and a stream of water was directed toward the blazing cupola, but the fire was too far advanced and the fire soon ate its way down to the roof of the roundhouse.

When Fire Chief Mayo reached the fire, he saw that there was danger of the flames reaching the oilhouse, and the Wabash elevator, all in close proximity, and he immediately sent in a general alarm.

Meanwhile the road's fire company had directed its efforts toward smothering the flames in the southeast end of the structure, which menaced the oilhouse, and the fire at this point was held fairly in check. The roof was already ablaze and threatened to collapse every moment, but the falling of the walls was not at this time anticipated.

The men working on the roof expanded in the intense heat and the frail frame covering gave way with a muffled roar, falling in on the stalled engines.

At this moment the southwest wall, 12 feet high and 18 inches thick, was seen to totter outward from the lateral pressure of the falling roof, and a yell went up to apprise of their danger the 15 men at work at this portion of the building. The warning came too late, and 13 of the men were buried in a pile of brick several feet high. That only two were killed outright was nothing short of miraculous.

Streams of water were poured on the smoking debris, and as soon as possible the work of rescue began. Preston and Bowen were buried completely, and were dead some time before their bodies were reached. They were badly crushed. Bowen's features were unrecognizable. Bohman was taken out in an unconscious condition and removed to his home, where he died a few hours afterward.

By this time half a dozen physicians had reached the scene and attention was directed toward caring for the injured. Leary, the machinist, was found to be the worst sufferer and it was feared he would scarcely live out the day. The others, though badly used up, will probably all recover.

The firemen had a stubborn fight with the now doomed roundhouse, the heavy wind greatly aiding the stubborn flames. At noon the fire was under control, and after destroying all that was inflammable of the building.

The property loss is estimated at \$100,000, probably insured. The roundhouse, which had capacity of 20 locomotives, contained only six engines and these are all badly damaged. A Wheeling and Lake Erie coaler, and Baltimore and Ohio boxcar were consumed.

**SUICIDE IN THE PARK.**

Frank McFarlane Warns People Against the Board of Trade.

CHICAGO, March 18.—Frank McFarlane, a prominent member of the Chicago board of trade, was found dead in Washington park by two park police officers yesterday morning. Investigation showed that McFarlane had shot himself twice through the left breast.

The circumstances surrounding his death show that it was deliberately planned. It showed that McFarlane had been brooding for several days over business embarrassments, and in a letter addressed to the public he had declared that he failed to often since he came on the board that he was at last disheartened and ready to give up that he must defeat again Rutledge, which was more than he could endure, and concluded by warning all honest men to beware of the board of trade.

**Infantry Burned.**

MILLERSBURG, O., March 18.—The Holmes county infantry near this place burned yesterday, causing a loss of \$65,000, upon which there was an insurance of \$15,000. The 46 inmates of the institution were rescued with great difficulty, but were all taken out safely.

The Firing on Our Mail Steamers Was Done to the Alliance With Not Be Repeated—One of Secretary Gresham's Requests Promptly Complied With—Courtney Reply Made to Another One.

WASHINGTON, March 18.—The state department has received a dispatch from Minister Taylor at Madrid stating that the Spanish government has given assurance to the United States that there will be no more repetition of such offenses as the firing upon the Alliance. The reply of the Spanish government is couched in courteous and temperate phrases, and expressed the determination of Spain to avoid further cause for complaint on the part of the government.

As to the attempted detention of the Alliance the Spanish minister of foreign affairs says that he is as yet without information, and will advise the state department as soon as he shall have received a report from the captain general of Cuba concerning that incident, a reply will be made to the demand contained in Secretary Gresham's telegram.

While the officials of the state department are unwilling to say anything whatever concerning the contents of Minister Taylor's cablegram, it is believed the foregoing is a fairly accurate interpretation of the dispatch.

It will be noted that the Spanish government promptly complies with the most important of Secretary Gresham's demands, which was for "immediate assurance" that the war vessels attacking Cuban waters should not give further offense in the manner complained of in the Alliance affair.

As to the other demands made by Secretary Gresham that the Spanish government should promptly express its regrets for the attempted detention of the Alliance, Minister Taylor indicates the willingness of the Madrid government to comply therewith in due time should the facts on investigation prove to be in accordance with the representations made by the United States.

**CLEVELAND CONFLAGRATION.**

Two Newspaper Plants and a Number of Other Buildings Burned Out.

CLEVELAND, March 18.—The Worthington block, at the corner of Ontario and Noble streets, occupied by The World newspaper plant and the A. N. Kellogg Newspaper company, was entirely destroyed by fire soon after 6 o'clock yesterday evening.

The building was of brick and five stories in height. The lower two floors and second floor were occupied by the Kellogg Newspaper company, with a composing room and stereotyping plant, while The World occupied the first and third floors. On the third floor was the Gladden Manufacturing company, makers of light hardware, and on the fourth was the Bandman Brothers, passers of various company, manufacturers of dress and cloak trimmings.

The loss on the building is estimated at \$40,000 with \$10,000 insurance. The loss on the contents is placed at \$90,000 with \$40,000 insurance. The Kellogg Newspaper company's loss is \$41,000 and the insurance \$21,000. The Gladden Manufacturing company and Bandman Brothers lost about \$10,000 each, which is insured.

The cause of the fire is a mystery. It started in the rear on the first floor and spread with great rapidity. An explosion, probably caused by gasoline, occurred soon after the fire started, causing quite a little excitement.

**SUNDAY LAW IN ST. LOUIS.**

It Is Being Enforced by Officers of the Sabbath Association.

ST. LOUIS, March 18.—Yesterday was the latest Sunday St. Louis has had within the memory of the oldest inhabitants. The Sabbath association had many committees at work and they made purchases in all the saloons, groceries, dry goods stores and haberdasheries' establishments, that were open and ready to sell.

The work of the Sabbath association a week ago has put terror in the heart of the men who have hitherto scarcely thought that they would be cited by law on the sabbath day. In consequence many stores heretofore kept open on the Sabbath day were closed. The sudden break of the butchers, grocers, cigar dealers and saloonkeepers to keep holy the Sabbath drove many absent-minded persons to their wits ends to secure the necessities and luxuries usually purchased on sabbath days.

Officers of the association say they are making an aggressive crusade in spite of the efforts of some influential men to thwart their efforts. The result of yesterday's work will be seen in the number of warrants applied for by the association's officer today. Arrests and convictions will follow in every case where witnesses are able to prove an infraction of the law.

**Battle With Muskeleons.**

MADRID, March 18.—Advices from Manila are to the effect that the Spanish forces, under command of General Barrado, have defeated the Malay Muskeleons at Mindanao. The enemy lost 109 killed, including the Sultan of Mindanao and his son. The Spanish loss was two officers and 15 men killed and 23 men wounded. The Spaniards captured four cannon and a number of rifles.

**Valuable Relics Burned.**

ROCHELLE, March 18.—The residence of Miss Sallie Perry was totally destroyed by fire yesterday morning. No insurance. Miss Perry is the daughter and only living child of ex-Governor Perry, and she was possessed of all the heirlooms, curios, portraits and relics of the family for two or three generations.

**Shanties and Cages at Cotton Burned.**

MISSION, La., March 18.—The steam boat Glen Vaughan, together with 400 bales of cotton and 100 sacks of seed, was destroyed by fire yesterday, two miles above the mouth of Bayou D'Arbonne. East and cargo insured. No lives lost.

**Queen Lila's Attorney General Dead.**

SAN FRANCISCO, March 18.—Arthur P. Peterson, attorney general of Hawaii under the monarchy, died in exile in this city last night.

**Indications.**

Fair weather; warmer; southwest winds.

to bring proper pressure to bear. It would, no doubt, be a delight to our sailors to have a little brush with the Spaniards in West Indian waters, if there should be proper occasion for a display of force; but hardly anything is more unlikely than such an opportunity.

A New York physician says that "the grippe" this year is marked by short duration, and "is not attended by so serious a physical and mental depression as characterized it two or three years ago. The posterior nares are painfully affected with catarrhal symptoms. It looks as if the disease was becoming attenuated with years. This time it has not come from Europe. It has become domesticated in this country."

It does not require any statement from Murat Halstead to assure us that Ohio is solid for McKinley. To be otherwise would not be Ohio. The Buckeye State will send a solid delegation to next year's National Convention that will waste no strength on second choice, but will climb for McKinley and know the climb of the tree as it goes up. In the meantime the Governor is away resting at a friend's house in Thomsville, and the Georgia and Alabama views of finance, free silver and flat money will be properly explained by the statesman there while he listens for the foot falls of delegates to join the Ohio forces.—Philadelphia Times.

Dun's commercial report of Saturday says, regarding the business condition: Substantially all indications of the state of business are rather more favorable. Farm products are a little higher, railroad earnings a shade better, clearing house exchanges a small percentage larger in comparison with two years ago than in February, and most of the industries show a somewhat better front, though their gain is not so large. Money markets continue undisturbed, the operations of the syndicate still prevent exports of gold, and withdrawals from the Treasury have of late practically ceased. There is not much enthusiasm about the situation, however, because the gain is slow, and business is yet a long way from what was once considered a prosperous condition.

The last rites have hardly been said over Robert Louis Stevenson's lonely grave on the lofty summit of the Samoan mountain when the whirlwind of another rebellion has broken out around his romantic resting place, and his own memory has become tossed about on the angry waves of the political storm. The dead author is posthumously accused of having aided the Atua rebels in their conspiracy against King Maeliote. "This is a strange little irony of fate. When Stevenson went into his hermitage at Samoa he was said to have buried himself. All at once came the thrilling events of the Samoan uprising, and the storm that wrecked the foreign fleets. Samoa became the centre of all the eyes of the world, and Stevenson became the historian of the peculiar international episode. And now, when his life's fitful dream is ended, the mutterings of the Samoan rebels disturb him even within his grave.

A Part of the New South. Julian Ralph's description in Harper's Magazine of northern Alabama, Tennessee and Georgia reads rather like some tale of the magical growth of a region under the spell of an enchanter's wand. In 1880 the great industrial revival in the south began. It was literally a revolution of the old industrial system.

From Roanoke, Va., to Birmingham, Ala., extends the great coal and iron region of the south. It spreads into West Virginia and eastern Kentucky. In Kentucky the coal veins yield pure coal, semianthracite and bituminous coal. The Chattanooga district contains 26,000 square miles in three states, Tennessee, northern Alabama and Georgia. One mining plant near Birmingham turns out 800,000 tons of high grade coking coal in a year.

A remarkable fact connected with the mining belt in question is that all through its extent iron ore, limestone and coal run along together. Within a score of miles of the coal mine is the vein of iron ore, and in the mountain sides is the limestone to make the lime used in smelting and clearing the iron ore. With coal, iron and lime thus together under ground and a soil richly adapted to grazing, farming and fruit raising above, the new south is indeed blessed beyond almost any other region on the globe.

The men that take the lead in developing the mineral resources of the south are themselves chiefly southerners. But the capital they use is northern and British. In the year 1870, 150,000 tons of pig iron were made in the Chattanooga district. Twenty years afterward 1,800,000 tons were made. The iron is sent north to be manufactured. The new south has yet few factories where iron and steel articles are made. She must still send north for nearly all her plows and cooking stoves. But the factories will come. Plainly nature in thus putting cheap fuel and iron mines together is making proper apology and in duly punishing the bumptious commander of the Spanish war vessel, the United States is in a position

## THE SONG OF A TRAMP.

The midnight stars are shining

From out the window wide,

And the moon is shining bright,

And the stars are shining bright.

While homeless and friendless

I wander wild and free,

I care for no good or bad,

And no one cares for me.

The north wind, strong and hard with frost,

Comes whistling 'round the door,

The blower as the breeze

I meet at every door.

The brown leaves on the oak trees

Are singing in the breeze,

They seem to think of summer time

And dream of pleasures past.

But never a thought of pleasure

Or happy dream have I.

The spring has no more hope for me

Than winter's midnight sky.

For then in wood of fall I sleep,

Or damp and luscious cave,

And now no warmer bed I seek,

And now no warmer bed I seek.

—D. J. Donahue in New York Sun.

"NEVER AGAIN."

Why did I ever rush into print as the

apparent champion of the "Never Again"

club? Why did I subsequently attempt

to repudiate the insinuation and try to

throw ridicule on the Russian and London

police? Why, after my recent dis-

comfiture over that dog license business,

do I appear again before the public?

"Concoct," I think, "my recent dis-

comfiture over that dog license business,"

"Concoct," I think, "my recent dis-

### SUPERB SILKS

Of course, all dry goods stores have Silks to sell, and the difference in the makes and qualities cannot be told by one buyer out of ten. To many people all silks seem alike. It is only by long experience that an expert can choose the best and if you will stop to think, a business like this gives you an exceptional good opportunity to buy Silks right, and not only that, but an elegant assortment to select from, both in fancy colors for waists and trimmings and in plain blacks for dresses.
